Experience

Axis My India

June 2023 – Present

SOFTWARE DEVELOPER

Mumbai, India

Field Monitoring Portal | *java, jsp, servlet, jdbc, javascript, css, bootstrap, rest api, mysql*

Feb 2024

- Developed an internal project where users can access all information related to surveys conducted in the field. Provided live survey counts per person, time-wise, team-wise, and date-wise.
- Users can also access sampling reports to review survey distribution among demographics such as gender, occupation, and caste. Additionally, incorporated functionality to create quality reports for team evaluation and future reference [code](#)

CMD Portal | *Html, Css, Javascript, Reactjs, Nodejs, Expressjs, Mysql, Rest api, React-Bootstrap, Jwt*

Nov 2023

- Build an internal website catering to the needs of CMD and clients, facilitating administrative tasks such as document uploading, deletion, printing, and PDF saving. Users(client) are restricted to viewing only.

Baavlibuch and Associates

Dec 2022 – Jan 2023

SOFTWARE DEVELOPER INTERN

Delhi, India

- Developed written queries to retrieve data and transformed inline queries into stored procedures, resulting in enhanced application performance.
- Participated in code reviews and collaborative programming, significantly reducing code defects.

Projects

DYNAMIC WEATHER WEBSITE

- Developed a dynamic web application allowing users to access real-time weather information for any city or popular place.
- Build with **Html, Css, Javascript, Bootstrap4, Nodejs, ExpressJs, Hbs**, and **Real-Time API** and hosted it in Heroku webapplication. [code](#)

CRYPTOGRAPHY

- Developed a Java GUI application enabling users to encrypt and decrypt various file types securely. Ensured user-friendly interaction through graphical user interface design.
- Build with **java, java GUI** and implemented **XOR Cipher (one-time pad)** algorithm for robust encryption.

TO DO LIST

Jan 2023

- Implemented a user-friendly feature allowing individuals to effortlessly add or remove specific to-do tasks
- Developed using **Hooks** and **State** in **Reactjs, Html, Css** and **javaScript** [code](#)

Education

NATIONAL INSTITUTE OF TECHNOLOGY, SILCHAR

July 2019 - May 2023

B.Tech. in Electrical Engineering (CGPA of 8.3)

Assam, India

Skills

Languages: Java, JavaScript, C++, Python, HTML/CSS, SQL

Frameworks/Libraries: ReactJS, NodeJs, Expressjs, JSP, Servlet, JDBC, SpringMVC, MySql, MongoDB, RESTfulAPI, OOPS, Docker, DBMS, Bootstrap, AdobePhotoShop, Adobe Illustrator, Adobe PremierPro

Tools: Git, GitHub, Postman, Visual Studio Code, Eclipse

Soft Skills : Communication Skills, Problem-Solving, Team Collaboration, Leadership, Adaptability, Creativity.

Achievements

- Solved **1000+** problems on GFG, LeetCode, CodeChef
- Secured **1st position** in Crack the Code, PowerSurge 6.0 (Annual week of EE Branch) Sponsor by Coding Ninjas.
- YOUTUBER, Making various videos related to **software** and **Hardware** issues on my YouTube channel "ALGO-M" which have almost 5 k+ subscribers currently
